

Web 2 Lead

CRM Online Lab Web 2 Lead
for Microsoft Dynamics CRM
Online

Web 2 Lead allows
Microsoft Dynamics
CRM Online customers
to directly integrate
leads generated from
their web-site into
“live” leads within their
CRM system.

Web 2 Lead with No Programming

Web 2 Lead connects a customer's existing web site directly to Microsoft CRM Online. With Web 2 Lead, customer leads are directly integrated with the customers Microsoft CRM lead management workflow process.

Web 2 Lead requires no programming on behalf of the customer. Customers can get started immediately by simply specifying the fields they wish to collect from potential leads.
